

Sacramento Area Woodworkers BOARD OF DIRECTORS

March 13, 2012

Dear Gold Country Woodworkers:

On behalf of the Sacramento Area Woodworker's (SAW) club, we would like to thank every member of your organization for helping support the custom wooden-turned ink pen raffle and fund-raising program recently held at the Woodcraft store in Sacramento.

All-together with your club's donation SAW raised approximately \$260.

The collected funding that SAW received will be used to purchase wood and other toy-making materials—supplies that Sacramento Area Woodworker's club members and volunteers will use to make hand-built wooden toys. These custom-manufactured (and often one-of-a-kind, hand-painted and hand-decorated) wooden toys will afterwards be donated for no cost to local needy children via the Salvation Army or other nonprofit charities.

Every one of our SAW club members thank you for your club's donation. As the current SAW officers, we would like to personally thank the Gold Country Woodworkers members for your kindness and generosity on this pen-selling and ultimately local toy-making endeavor.

In closing, thank you again for your club's kind financial support to SAW, and for encouraging and providing woodworking opportunities in our community. Most importantly, thank you Gold Country Woodworkers for helping sponsor the toys that we are sure will soon be lovingly made—special and remarkable wooden toys that will be deeply appreciated and remembered forever by the many needy local children who will enjoy them.
